OUR CLASS IS THE BEST HANDS DOWN

In this center you will work individually.

Trace the outline of your hand and arm. Once you have the outlined traced, then start thinking of all the things that make you special.

Ask yourself:

What do you like to do in your spare time? What do you like to eat? Do you have any special talents? What things are near and dear to your heart? What places have you been? Who are the special people in your life? What are some things that have happened to you that have made you who you are? What are some happy or sad moments in your life?

Decorate your hand with all the things that make you special or unique. Use words or drawings and color. You should cover your whole hand and arm. Leave very little white space.

Write your name on the front or the back it's up to you...I'll use these to make a mural in the hallway!
