**2019**

ROTC was an amazing experience for region officers to build up leadership, bond, and gather new information to report back to their chapters. While being at Fresno State for 4 days each region officer has carried back useful and resourceful information.

Elijah Villasenor ~ During a workshop, at ROTC, I had to navigate an obstacle course while blindfolded with only guidance from the Vice President. I learned that teamwork makes the dream work and that without the support of one another nothing will be accomplished. Overall it was a fun experience-

Sophia Allen ~ ROTC was awesome and I had so much fun getting to know my fellow region 6 officers. I really enjoyed bowling and preparing and performing our region cheer. I learned a lot about trust and my role as Region 6 Vice President.

Rubi Ayala ~ ROTC was such an epic experience to remember! I had such a great time and got to socialize with many different people. All the workshops were very helpful and gave my region team and I much more confidence into being a region officer this year!

Kailey Monday ~ My experience at ROTC was memorable because I felt encouraged by my fellow officers and accomplish new things. I also learned that I can step up and face my fears despite being afraid.

Carmen Rodriguez ~ At ROTC not only did I meet a lot of people and make new friends, I was able to meet a lot of great people. ROTC was an opportunity for us to grow and make mistakes as a team and learn as a team. I also enjoyed the icebreakers and can't wait to show them to my region!

Zahleyah Miller ~ While attending ROTC, I now understand the importance of teamwork and leadership. Throughout the workshops my social and team bonding skills have developed tremendously. With the skills developed in ROTC I hope to be a better version of myself along with my team.
