Virtual Competition Basics

- Students will submit a video of the presentation. Specific requirements can be found in event rules.
- **NEW:** Most competitions require the student to answer two questions at the end of the video:
 1. What is one skill that you learned or improved upon during your project that you will use in school next year or in your future career?
 2. What obstacles caused challenges in your work, and how did you address them?
- A voiceover of the recording or presentation is not allowed. The video file can be an embedded video, video link to YouTube, Vimeo, or Google Drive, but must not require the viewer to download it.

General Rules for all Events

- All STAR Events projects must be developed and completed during the one-year span beginning July 1 and ending June 30 of the school year prior to the National Leadership Conference.
- All STAR Events projects must be planned and prepared by the participant(s) only. Supporting resources are acceptable as long as participants are coordinating their use and resources are cited appropriately verbally and/or in-print during the presentation to avoid false credit.
- Participants are encouraged to use original materials, items licensed for reuse, or items in which copyright permission has been granted.

General Rules for all Events

- **Can live animals be used in competitions?**

No, this would count as a DQ; participants shall not use live animals (including fish) in any STAR Event.

- **I have a student who placed 1st in State Finals in Level 2. Can they compete in the Level 3 of the same event this year?**

Yes, as the competitor will be in a new level.

However, the student may not use the same project or presentation. If the student placed 1st in an event, they are ineligible to compete in the same event in the same level the following year.

Question: Team Events

- **Some of my students are working in groups. With current COVID restrictions, I'm not sure how I could gather students to film their presentation. I know that the criteria states that the recording must be of them presenting as if we are in person.**

Students will be presenting and filmed.

- **What if each member of the team take a part of the presentation, film it then it is all put together?**

That would count as them doing the presentation.

Team Events Related to Chapter

- **National Programs In Action**

Chapters can have more than one entry as long as different projects are described, but students cannot compete in more than one event.

Question: Uniforms

- **I have plenty of uniforms to loan in a “normal” year but in a COVID year, it is difficult. Many of my students cannot afford to buy a uniform. How can we meet the uniform expectation in a COVID year?**

This is difficult in this COVID year. Try to meet the dress requirements as best as you can. Remember that some students will qualify for Nationals with this video and in fact could end up using this video for national competition.

At the State level, the evaluators in completing the rubric will decide if students are in professional dress.

Baking & Pastry/Culinary Arts

- **New:** These are individual events.
- Students will submit a video of food preparation.
- The video will include:
 - Food preparation
 - Plating
 - Answer two given questions
- Time:
 - Baking and Pastry: 125 minutes
 - Culinary Arts: 65 minutes
- A voiceover of the recording or presentation is not allowed. The video file can be an embedded video, video link to YouTube, Vimeo, or Google Drive, but must not require the viewer to download it.

Question: Fashion Construction Update

- **Why doesn't Fashion Construction Level 1 advance to National Competition?**

Competitors do not advance because there is no Level 1 in National Competition.

Interior Design

- **The STAR event lists sample boards to be completed along with a design board. Can you explain what is meant here?**

The design and the sample boards are not the same thing; there must be one board for the design, and 1-2 boards for the samples.

There is a great resource in both the Advisor and Student portals. It is called STAR Events Templates and Resources. It is listed individually in the student portals, and in a folder, “STAR Events Templates & Resources” for advisors.

Question: Fashion Design

- **In Fashion Design, how should the students drape their garment sample for the display?**

The sample should be presented to evaluators with the portfolio at the beginning of the video.

It should be shown in the video with the collection sample pattern during the presentation.

The collection sample may be displayed using a mannequin, dress form, or other method chosen by the participant, but may not be modeled by the participant or another person.

Question: Hospitality, Tourism, and Recreation

- **Will there be a case study for competitors to complete in HTR?**

No; in virtual competition there is no case study. Competitors will automatically receive points for these items (there are two lines in the rubric).

Question: Parliamentary Procedure

- **Is there an exam in Parli Pro?**

At the State level, there is no exam in Parli Pro this year. At the National Level, there is.

Question: Salad Preparation

- **Can you clarify the Salad Preparation themes?**
 - **Level 1: “California Citrus”**
 - **Level 2: “Mediterranean Salad”**
 - **Level 3: “Micro-Greens”**

No tofu, beef, poultry, pork, fish, seafood, or eggs that require refrigeration can be used. Students may use sealed canned or shelf-stable vacuum-packed products, including meat, seafood, or poultry. These must be commercially canned/packaged and **MUST** not require refrigeration. During competition students must open canned/packaged product in front of the Evaluators.

- **Can cheese be used?**

No, as it is a food that requires refrigeration.

Question: Menu Planning and Table Display

- **Does all tableware/place setting need to be provided in the display or just what is needed for the menu?**

Per the event guidelines on page 3, Table Display, for place settings it states that all appropriate dishes must match the menu.

On the rubric for the category Table Display and Oral Presentation, it states that flatware should reflect and match theme, be appropriately placed, and accurate to the menu.

Also, on the rubric for category Place Setting, it states that the place setting reflects and matches theme, appropriately placed, and accurate to menu.

Question: Repurpose and Redesign

- **Do competitors compete in the Repurpose and Redesign event at the regional level? Will there still be a Recycled Fashion Show Contest at State Conference?**

This year there is only one level of competition; there will be a Recycled Fashion Show.

Competitors in Repurpose and Redesign, Fashion Construction, and Fashion Design events may enter the fashion show.

The deadline for entries is March 20, 2021.

Questions and Answers

ALL EVENTS

1. **Question:** Does the Hardcopy Portfolio have to be the official FCCLA binder?

Answer: For Regional and State Competition, students can use any new red or white binder. If the student is going to compete in the FCCLA STAR Event at Nationals, they will lose points if their project is not in the official FCCLA binder.

2. **Question:** How many copies of event paperwork needs to be given to the Room Consultant?

Answer: Three copies of paperwork are needed for the evaluators in a file folder. The Room Consultant will provide each evaluator a copy to score the presentation to ensure the process will be objective and fair. Please read the STAR or CRE event as some events also require additional criteria.

3. **Question:** Will students be provided writing utensils for completing their case study, writing sample, or exam?

Answer: No, writing utensils are considered part of the supplies, as specified for the event, and the student will be disqualified per General Disqualifications Rule #6.

4. **Question:** Can Qualifying Finalists (1st through 7th place) change the concept or topic of their presentations before advancing to the State level competition?

Answer: No, any entry may be improved at each level, but the concept of the topic may not be changed. The comments from the evaluators may be considered to improve the event at each level.

5. **Question:** What forms of student identification are required for participation in CREs?

Answer: Competitors will be turning in the signed CRE Permission Form at the regional competition. Competitors should have a current photo ID or a good quality color copy of the current photo ID at each level of competition. It is suggested that advisors make a color copy of the ID and carry it with them in case the competitor does not have this before the competition. At State Finals Competition, competitors are required to also wear their competitor ribbon. For events: Chapter Service Project Display, National Programs in Action, Parliamentary Procedure, and the Recycled Garment Fashion Show Contest, advisors will need to submit student names on the CRE WES no later than 30 days prior to the State Leadership Conference.
